

# JOB<sup>4</sup>ALL

Fitting VET-business for the future employment of all

## INTRODUCTION

Co-funded by the European Union

JOB<sup>4</sup>ALL is a 24-month Erasmus+ project which aims at developing meaningful VET-business cooperations that can pave the way for VET systems to raise the quality and attractiveness of VET. JOB<sup>4</sup>ALL partners recognize that VET provision needs to be based on effective governance at all levels, and that strong employer engagement is vital for delivering excellent and inclusive VET that offer opportunities for both economic and social cohesion, tackle mismatches between employer needs and worker skills and support competitiveness and sustainable development.

## WHAT HAS BEEN DONE UP TO NOW

For the past year, partners have worked tirelessly to build and complete the first Project Result. The first PR comprises mainly of a specific methodology and a mixed Continuing Professional Development Program, or CPD program. The CPD Program is entirely based on a two-level pathway of employer participation in Vocational Education and Training (VET), with the goal of upskilling VET professionals and developing VET-business collaboration.

On top of the milestones that were accomplished in the previous period as described in the second newsletter, more progress has been made in just a few months. Precisely and just in a few words, the methodology for PR1 was finalized, the construction of a thorough CPD strategy, the creation of a Learning Outcomes Matrix (LOM), and their translation, editing, piloting, and fine-tuning processes were succeeded up to this point of the project's life cycle. by following specific steps.
